# RAISE THE ROOF APPEAL

## 35 Year Old Roof - In Need of Repair!

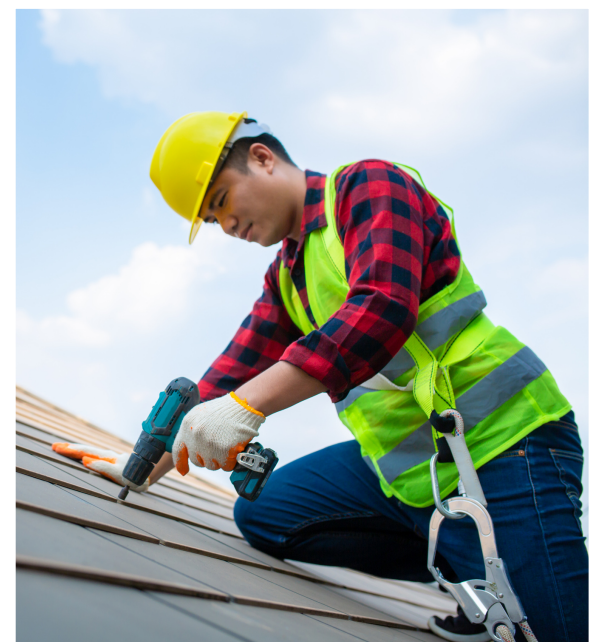

While our residents inside are safe & happy, above their heads a big problem looms!

Photos taken during a recent roof assessment show significant wear & tear, cracking, & water damage that need to be addressed before the damage increases & causes major leaks & problems for those inside!

## Whats the Plan?

Quotes have come in at over €160,000 for the entirety of the work! We are hoping to raise €75,000 in funds over the next year to support this crucial project. In the mean time essential work will be carried out to the areas that need it most, and then funds raised will be used to fix & maintain the rest of the roof to ensure no further damage, or wear cause issues! With your help our residents can continue to feel safe & happy with a newly repaired roof overhead for decades to come!
